fraying the current services of that year.

2 (If the Public Debt.

The funded debt, which was gontracted before the year 1812, and which was unredeemed on the 1st day of October, 1822, and which was unredeemed on the 1st day of October, 1822, and which was unredeemed on the 1st day of October, 1822, and which was a constant of the second of the seco \$17,189,852 60

And that which was con-tacted survey and to the of October, 1822, amounted Making the total amount of funded debt, unredeemed on the 1st of October, 1822, \$93,0\$2,701 18

that year, there was paid the Viz: Reimbursement of 6 per cent deferred stock 265,673 32 Redemption of 6

per cent. stock, of 1820, 2,000,000 00 Reducing the funded debt, on the 1st of Jaunary, 1823, 90,777,027 86 From that day to the 1st of

October last, there was added to the debt-In 3 per cent

Treasury note 6 per cent, stock, 1,561 87
Treasury note 7
per cent, stock, 135 00

Making an aggregate of 90,778,857 12 During the same period, there was paid, in reimburse-ment of the deferred 6 per

ent. stock. 327,022 88 Reducing the funded debt; 90,451,834 24 Since that day, there has been added, in Treasury note six per cent. stock.

Making an aggregate of 90,452,550 99 It is estimated that the re imbursement of deferred stock, in the fourth quarte of the present year, will a-

mount to 274.588 85 Which will reduce the unded debt, unredeemed on the 1st January, 1824, to \$90,177,962 14

The amount of Treasury notes outstanding on the 1st of October, 1823, is esti-\$26,122 00

And the amount of Mississippi stock unredeemed on that day at

\$21,258 87 3d. Of the Estimate of the Public Revenue

and Expenditure for the year 1824
It will be perceived, that the actual receipts of the year 1823, agree, substantial ly, with the estimate presented in the last annual report. The only deficiency is in the proceeds of the proble lands; and that is understood to have been the consequence of an expension. of an expectation, generally entertained-that the lands which were relinquished un der the act of the 2d of March, 1821, and which are supposed to present the strongest inducements to purchesers; would be brought into market early in the ensuing year; with respect to the customs, however, the anticipations that had been formed; both as to the circumstances which were calculated to have an influence upon their productiveness, and as to the results, have been completely realized. It is believed therefore, that data founded upon the same principles as those which every recording form principles as those which governed in forming the estimate for the year 1823, may be satisfactorily presented as the basis of an estimate for the year 1834 With this view, the Secretary has the honour to

state:

1st. That the gross amount of duties on imports and tonnege, which accrued from the ist of January to the 30th of Septem the ber last, inclusive, is estimated at 17,809,000 dollars, and that of the whole year, at 21,000,000 dollars. Of this sum, that portion which accrued in the first half of the year, is about 1,000,000 dollars less shan that of the same period in the preceding year; and that which accrued in the three first quartast it. The process of the year is estimated at 1,700,000 dol.

No. 5.

Jars less than that of the corresponding quartiters of the preceding year.

2d That the debentures issued during the three first quarters of the year 1823, amounted to \$3,412,000, which exceeded the amount issued during the corresponding period of the year 1822, by 1,500,000 dollars; and the amount of debentures, outstanding on the 30th of September last, and this geable upon the revenue of 1824, was 1,405,000 dollars; which is 500,000 dollars more than was on the hameday, in 1822, charges ble upon the revenue of 1825.

3d. That the value of domestic articles exported from the United States, in the year ending on the 30th of September last amounted to 47,155,711 dollars; being \$7,18,368 dollars less than those exported in the year ending on the 30th September last, was 27,530.169 dollars; being 5,244,267 dollars more than those exported in the preceding year.

1th That the aggregate value of the imports into the U. States, during the year ending on the 30th September last, is estimated at 77,486,432 dollars; which is less imated at 77,486,432 dollars; which is less imated at 77,486,432 dollars; which is less imated at 77,486,432 dollars; which is less, by 5,755,109 dollars, than those imported in the preceding year.

preceding year.

5th. That the amount of custom house 5th. That the amount of custom house bonds, in suit, which, on the 30th of September, 1×20, was 3,130,000 dollars, was on the same day, in the year 1822, 2,795,000, dollars, and in the year 1823, 2,817,000 dollars; whence i appears, that although a reduction of 313,000 dollars had taken place during the whole period, yet the amount in suit on the 3 th of September last, was greater by 2,2,000 dollars, than on the same or the same of the same of the same of the same than on the same than the same than on the same than the same greater by 22,000 dollars, than on the same

day of the year preceding.

Upon a consideration of all these facts, and the conclusions desucible from them, the receipts from the customs, in the year 1824, may be estimated at 16,000,000 dol-

Inquished under the confirmed the lands of lands ensuing year; but, as it is yet uncertain to what extent this may be deemed advisable, and as the sale of these lands, will probably absorb a great portion of the means of those who are prepared to make investments in the public lands, it raconsidered prodent not to estimate the receipts from this source of revenue at more than 1.600,100 dollars;

although it is believed, that they will exceed that sum. Under these circumstances, the receipts of the year 1824 may be estimated as fol-

Public Lands
Bank 11: Public Lands 1,600,00
Bank Dividends 350,000
Incidental receipts, including Arrears of Internal Duties and Direct Tax 50,000 and Direct Tax Repayments of advances made in the War Depart-ment for services to July 1, 1016 \$0,000

Making together \$18,550,000 60 To which is to be added the sum of Remaining in the Treasury, after satisfying all the appropriations thargeable upon the means of 1 13, which makes the entire means of the year 1824, amount to

mount to
The expenditures of the year 1824, are estimated as fol-

Civil, Diplomatie, and Mis-Civil, Diplomatic, and Mis-cellaneous \$1,81,057 23 Military service, including Fortifications, Ordnance, Indian Department, Revo-lutionary and Military Pensions, arming the Mi-litia, and arrearages prior to 1st January, 1817 to 1st January, 1817 5,122.268 15

Naval service, including the gradual increase of the Navy, 2,973,927 Navy, 2,973,92751 Public Debt 5,3:4,000 00

Making an aggregate of which being deducted from the estimated means of 1824, will leave in the 15,224,252 89 Treasury, on the 1st Jan-uary, 1825, after satisfy-ing the current demands of the year 1824, a bal-arce estimated at-\$9,792,716 41

Under the existing laws, there is no pro-bability that any portion of the balance re-maining in the Treasury on the 1st of Jam-uary, 1824, or of the surplus which may accrue during that year, can be applied to the discharge of the public debt, until the lat of January, 1825. Yet, it is not deem-ed conducive to the general prosperity of the nation, that so large an amount should be drawn from the hands of individuals, and suffered to he mactive in the vaults of the suffered to he mactive in the vaults of the Banks. On the other hand, the high rate of interest of the great amount of debt which becomes rede-mable on the lat of January, 1825, renders is inexpedient for the government to apply to other objects any portion of the means which it may possess of making so advantageous a reimbursement. It is believed, however, that every inconvenience may be obvisted, if authority be given for the purchase of the 7 per cant suffered to he mactive in the vaults of the

inconvenience may be obviated, if authority be given for the purchase of the 7 per cent stock, amounting to \$8,610,000, during the year 1824, at such rates as may be consistent with the public interest. As it is now certain that life government will possess ample means to reddem, that stock on the lat of January, 1825, it is presumed that the linders will be willing to dispose of it, during the interval, at a fair price; and, as a gradual-conversion of it into moneys of the content of the most advantageous to the moneyed transactions of the community, it is presumed that the following the transactions of the community, it is presumed that the world between account of the community, it is presumed that the following the most advantageous to the moneyed transactions of the community, it is presumed.
